

# Small Business Phone and Internet Bundle

## *Phone Internet Bundles from Cable ONE Business*

Cable ONE Business allows small businesses to bundle a wide variety of phone and internet service packages into a single, reliable communications plan.

## *The Benefits of Phone and Internet Deals for Small Business*

Financial savings are just the tip of the iceberg for how phone and broadband deals can benefit small businesses. Virtually all small businesses have something to gain from these bundles, but they are particularly valuable for companies with:

### *Limited Vendor Management*

Purchasing phone and internet separately means reviewing and signing two separate contracts, paying two separate sets of bills, and keeping up with changing policies from two separate sources.

### *Minimal Expertise*

Bundling the services allows you to obtain customer support from a single, convenient source. With a Cable ONE Business bundle specifically, you will receive technical support 24 hours a day, 7 days a week.

### *Rapid Growth Prospects*

Small businesses that expand rapidly often need to reorganize their communication services. Business phone and internet packages are highly customizable, allowing you to reorganize and rebalance both services as your company's needs develop.

*Contact Cable ONE Business to learn more about the options available to your business.*
